

AZIMUTH BUILDTRACK

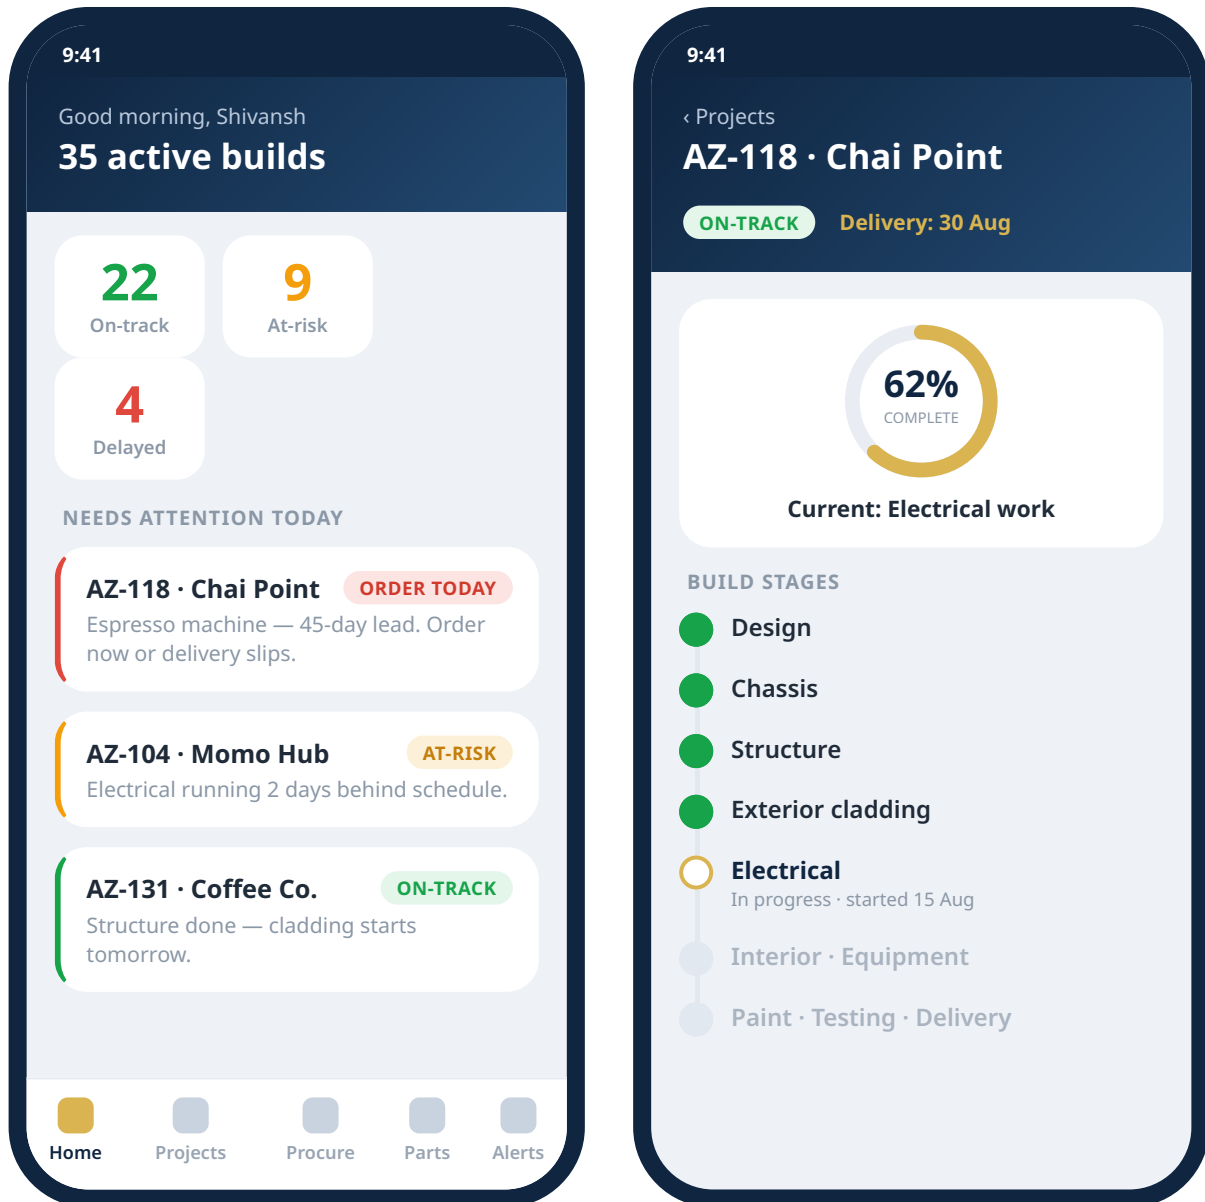

UI Mockups

Mobile app — key screens preview

Concept design · v1.0 · Not final visuals

1 · Fleet Dashboard & Project Detail

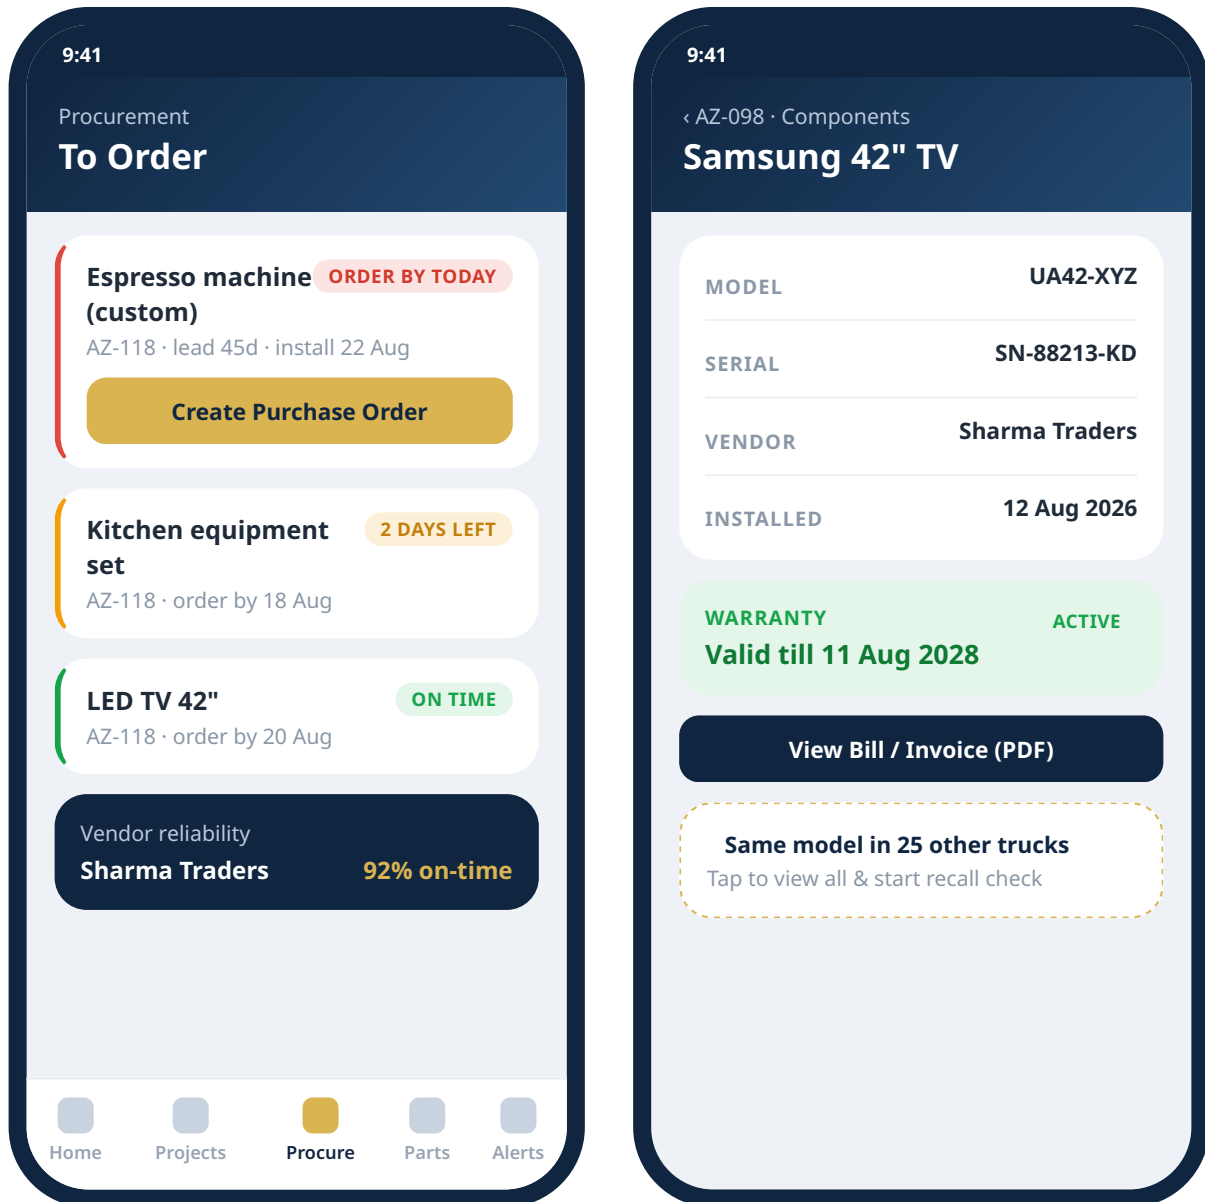

What the Owner / Project Manager sees first

Fleet health at a glance · tap a project for its full stage timeline

2 · Procurement Alerts & Component Traceability

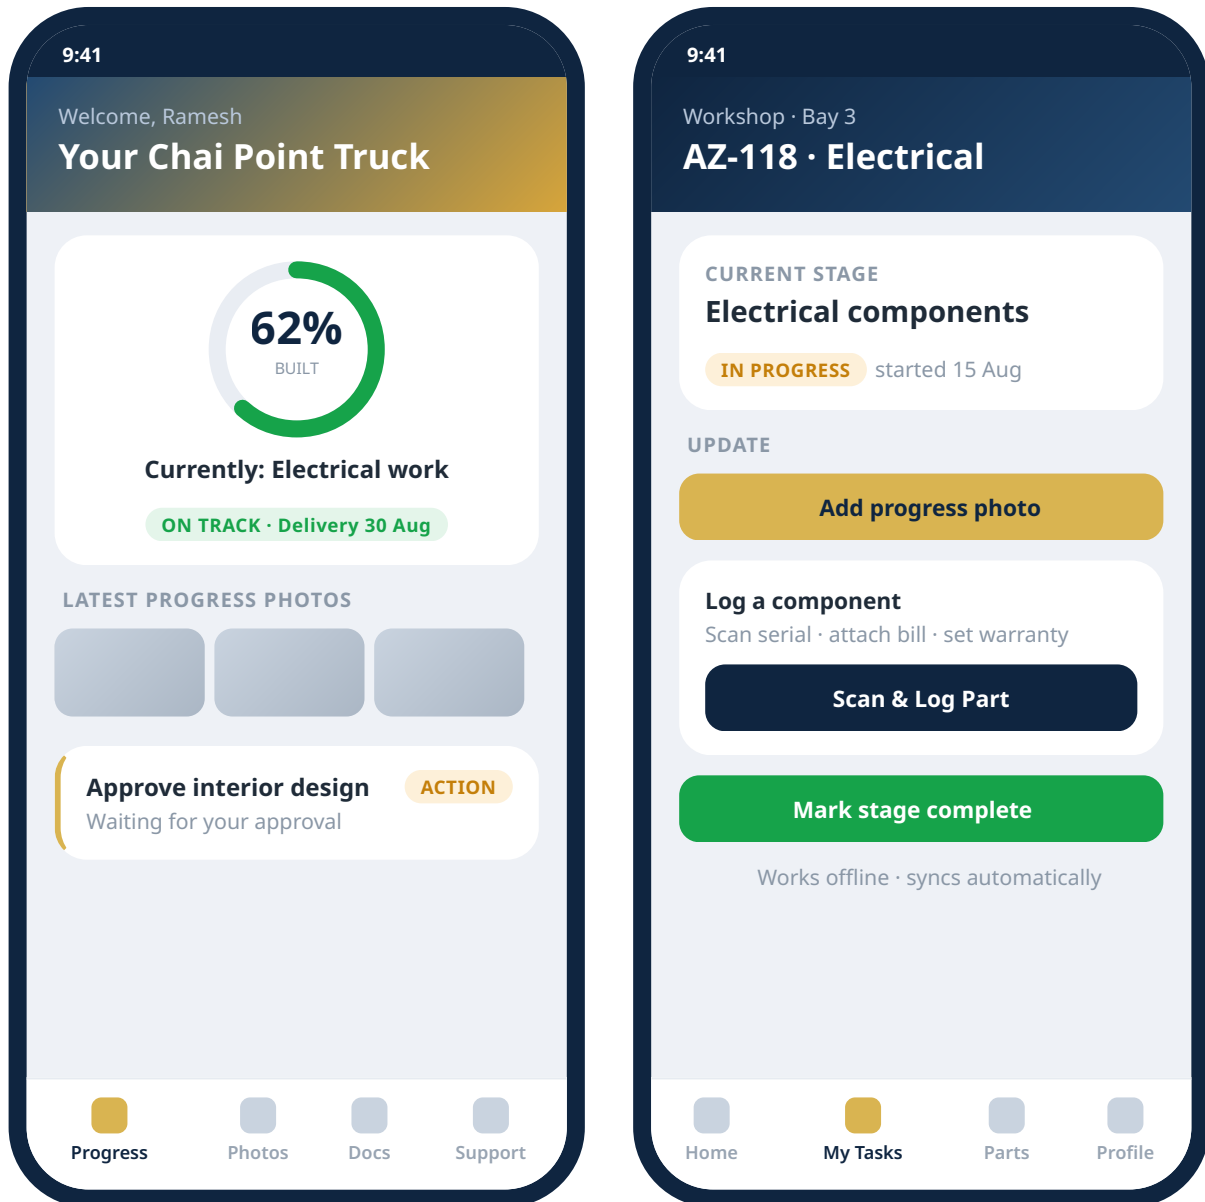

Solving the two core problems — never miss an order, always find a part

Every part serial, bill, warranty in 2 taps · instant recall across the fleet

3 · Client View & Workshop Update

What the client sees · how the workshop updates on the floor

Client tracks progress without calling · workshop updates in seconds, even offline
